HIS LAST SHIFT.

John Isaac Meets Death in the Globe Copper Mine.

No one to Blame for the Accident.

Early on Thursday afternoon the distressing news was received that John Isaac had been fatally injured in the Globe mine. Dr. Largent went post haste to the mine, but found, upon his arrival there, that his services were not required as Isaac was already dead. Pending the arrival of authentic news of the accident, various rumors were afloat in town as to the manner in which the unfortunate man met his death, and it was some time before the exact facts, as given below, could be ascertained.

A few minutes before one o'clock Thursday, John Isaac and Josie Kinsman, timbermen, were at the sixth level station in the Interloper shaft. Kinsman had just crossed over from the pump station to the opposite side in the sinking compartment of the shaft where Isaac stood, and had his back turned to Isaac when the latter attempted to cross to the pump station to get a tool, probably a square. They were in the habit of crossing the shaft (four feet wide) at this point by grasping the guide at the side and springing across, and did not consider it especially hazardous; but Isaac, probably, like many others accustomed to working in dangerous places, relaxed his caution, and without looking to see if the cage was moving or not, started to cross the shaft, when the shoe or else the upper cross bar of the ascending cage caught him and carried him upwards. Evidently he attempted to escape by sliding into the recess between the cage and wall of the shaft, but before he could do this he was carried up and crushed between the cage and the next set of timbers above.

Kinsman testified that the first intimation he had of the accident was hearing Isaac exclaim, "My God! My God! Kinsman turned quickly and pulled the bell rope, and the cage was immediately stopped, after it had gone up about two sets of timbers, or 12 feet above the station. After the cage had cleared the first set of timbers, the crushed body of Isaac was released and rolled over the side of the cage and fell to the bottom of the shaft, about 70 feet below, and was picked up by Messrs. Dillon, Sturgeon and Davis, employed at sinking the shaft. They testified that Isaac lived about one minute after they reached him, but it is not probable that he was conscious after falling from the cage.

The body was badly crushed and disfigured; a large gash was cut in the skull near the forehead, exposing the brain, and the neck, the lower ribs on both sides, one leg and an arm were broken. The body was immediately hoisted to the surface, and after being washed and made, in a measure, presentable, was conveyed to his room in Mrs. Moore's lodging house, and an inquest held by acting coroner, Job Atkins, at which the evidence adduced agrees with the facts here given.

John Isaac was a native of St. Austell, Cornwall, 38 years of age, and had been a resident of Gila county for upwards of ten years. He was first employed at the Hoosier mine, and when operations ceased there he went to Pioneer where he remained some time, and returned to Globe in 1883, and was employed in the Globe mine almost constantly up to the time of his death. The deceased was a worthy citizen, of quiet disposition and gentlemanly demeanor, and his tragic death is greatly deplored by the entire community. He was a member of Globe Lodge No. 6, I. O. O. F., White Mountain Lodge No. 3, A. F. & A. M., (in which he held the office of W. M.), and of White Mountain Chapter O. E. S.

The funeral took place yesterday at 2 o'clock p. m. from the M. E. Church and was probably the largest and most imposing ever witnessed in Globe. The cortege, composed of members of Globe Lodge No. 6, I. O. O. F., White Mountain Chapter, No. 2, O. E. S., and White Mountain Lodge, No. 3, A. F. & A. M., met at the Masonic lodge room and accompanied the hearse to the church, where the funeral sermon was delivered by Rev. N. F. Norton. At the conclusion of the services at the church, the funeral procession, comprising members of the different societies, employees of the Old Dominion Copper Company, and friends and acquaintances of the deceased, numbering in all more than 200 persons, on foot and in carriages, proceeded to the cemetery where the impressive burial rites of the Masons and Odd Fellows were performed, which closed the ceremony.

On Monday evening, March 17th, a ball will be given at the Rink. The proceeds will be devoted to the establishment of a Catholic Church. Admission \$1. Help the good cause.

John Oliver and R. A. Sweetland, who have been playing the confidence game, are wanted in Globe. Sheriff Ryan is hot on their trail.

Cigars, cigarettes, tobacco and pipes for sale at reasonable prices at the Post Office Store.

Liquors of all kinds, at G. S. VAN WAGENEN'S.

MURDERED BY APACHES.

The reported killing of the freighter, Herbert, by Indians on Sunday evening, near "Point of Rocks" nine miles west of Fort Thomas, and the burning of his wagon and merchandise belonging to Globe merchants, is confirmed. Herbert was on his way from Bowie to Globe and had just gone into camp when surprised and murdered by the red fiends. They fired the wagons and in order to prevent communication between San Carlos and Fort Thomas, cut the telegraph wire, and after connection had been re-established they cut it again and carried off about sixty feet of wire. Freighters some distance behind Herbert, attracted by the fire, discovered the perpetration of the crime, and it was soon known that Thomas and San Carlos. Troops started the same night in pursuit and are still out.

The action of Eastern philanthropists(?) who exert an influence in preventing the application of criminal law upon offending Indians as is visited upon white transgressors are the primary cause of Indian cruelties, inflicted upon white men, women and children, and, therefore, it is safe to class such persons for every inch that is not fool, as worse than rogues, or too ignorant to realize the character of those for whom they sympathize. Sympathies are wasted upon Apaches; rather should tears be shed for the whites in Eastern penitentiaries and efforts made to throw open the doors of all prisons, as they are now trying for the liberation of the murderous Chiricahuas at present confined at Mount Vernon Barracks, Alabama.

A NOBLE LIFE ENDED.

The death of Mrs. Mary G. Allen on Monday last, from pneumonia, occasioned profound sorrow among her many friends in Globe, who had learned to know and appreciate the rare qualities of heart and mind of which she was possessed. Not of a robust constitution, nature interposed little resistance to the progress of the disease, and all human efforts to check it proving unavailing, after several days of great suffering, the spirit, released by the angel of death, took its flight above.

Mrs. Allen realized that dissolution was near at hand, and was resigned, believing that in "that undiscovered country" she would receive compensation for the burdens borne in this "vale of tears." She exhibited remarkable fortitude, as well as solicitation for the future of her child and disposition of her worldly effects, having executed her will and given minute instructions in regard to her funeral and minor affairs. Her little boy she left to the care of her sister Mrs. Harriet Weeden, residing in Minnesota, who is expected in Globe shortly to receive her charge.

There was a very large gathering of sorrowing friends and acquaintances at the funeral services, both at the M. E. church and at the grave, and which were very impressive. In the death of Mrs. Allen this community has lost a valued member, and her absence from her accustomed walks in life will be regretfully noted.

IN MEMORIAM.

At a special meeting of Globe Lodge No. 6, I. O. O. F., the following resolutions were adopted:

WHEREAS, It has pleased the Supreme Ruler to suddenly call to the Grand Lodge above our brother, John Isaac; the hand of affliction once more rests heavily upon us, and we are summoned to the Hall of Mourning, to perform the sad rites of the burial of an Odd Fellow, whose affiliation and many virtues were an honor to our fraternity, and whose life was governed by the principles of friendship, love and truth, abounding in bright deeds of true, fraternal kindness, and whose name will long be cherished in our Halls as that of an honest, upright man; therefore be it

RESOLVED, That in his death we have lost a noble companion, friend and brother, and that our fraternity must mourn the taking-off of an earnest and efficient worker in the fields of Odd Fellowship.

RESOLVED, That while we deplore the terrible calamity which has stricken down our brother in his prime, we humbly bow to the inscrutable ways of Providence, comforted by the hope that his spirit has found rest from life's fitful troubles in the Grand Haven above.

RESOLVED, That we tender to his absent relatives deep sympathy in this hour of trial; that we wear the usual badge of mourning and that our Halls be appropriately draped in memory of our departed brother.

A. C. CARTER,
C. E. TAYLOR,

SEEKING INDIANS.

We are now in possession of what are probably the facts in regard to the refusal of San Carlos Agency Indians to draw rations. February 18th, Mr. Burrows, issue clerk, and Mr. Jerry, industrial teacher, visited Charlie Pan's camp of Tontos, on the Gila, two miles from the Agency, for the purpose of issuing ration tickets to the Indians. Tickets good for 14 weeks rations are issued to the head of each family, upon which is written the number (adults and children) and sex of members composing it. The officers noted the fact that the number of Indians present in some families did not tally with the number given in as entitled to draw rations, being much fewer, and as has been customary when such discrepancies existed heretofore, Messrs. Burrows and Jerry demanded that the missing Indians be produced if they were to figure as recipients of government rations. This did not suit the Tontos who became sullen; some of them got their guns, and requested the interpreter to tell Messrs. Burrows and Jerry that they had better return to the Agency, which they did, deeming discretion the better part of valor.

Mr. G. L. Faurote, Niles, Michigan, states that while engaged in business in Indiana, he handled a full line of Chamberlain's medicines, and that his sales on Chamberlain's Cough Remedy were very large. The Remedy, he said, gave first class satisfaction to his patrons, also, that he always used it exclusively in his own family whenever required and with the most gratifying results. Let anyone troubled with a severe cough or cold give it an honest trial and they will soon become convinced of its excellence. It possesses qualities peculiar to itself, which makes it far superior to any other for acute throat and lung diseases, such as coughs, colds, croup and influenza. For sale by H. C. Hitchcock.

A Casa Grande letter to the Tucson Star, says:

Clark, who was arrested at Fort Thomas as an accessory in the watch stealing case, was examined yesterday in the justice court and held to answer in a bond of \$500.

Judge J. D. Walker of the Yekol, has grown so much worse mentally that it became necessary to take him into California, where he can have medical treatment and care. Judge Walker left last Friday morning, accompanied by his attending physician, Dr. Sabin, and some of his personal friends.

William O. Kellner returned from Phoenix on Thursday, accompanied by Thos. Stewart, (formerly with E. F. Kellner & Co. here) and Mr. Bellas. They will proceed to Kellner & Co's saw mill, Pinal mountain in a day or two, where work is to be resumed. The road up to the mill and logging roads will first be put in repair, and the mill will be started up at an early date. The company will furnish the Old Dominion Copper Company with timber during the current year.

There are about 30 Indians confined in the guard house at San Carlos, most of whom are in irons, Kin-de-lay among the number. The murderers of Herbert belong to Kin-de-lay's band. Besides those in the guard house, there are other prisoners who are taken out to work daily.

Elisha Lincrance, late an attaché of the Indian department at San Carlos, is now in Globe. J. F. Johnson, recently an employee of the same department, also returned.

Services at the M. E. Church tomorrow as usual. Preaching at 11 a. m. and at 7:30 p. m. Subject for the evening, "Regeneration or the New Birth." Sunday School at 2 p. m.

IN HOT PERSECUT.

In response to our inquiry for news concerning the pursuit of the renegade San Carlos Indians who murdered Herbert, Capt. Johnson, Commanding officer at San Carlos, kindly sent us the following telegram:

SAN CARLOS, March 6.

Eds. SILVER BELT:—Everything is quiet here and in the vicinity. Roads are patrolled to give security to travelers. Lieut. Watson is on hot trail of the five Indians who, while on a tinwin drunk, killed the freighter, on the 2d inst. I do not think that the affair was premeditated. The Indians, when I last heard from Lieut. Watson, were about 45 miles northeast of here in the foothills of San Carlos mountains, south of Black River. They were going westward. The party has the two horses taken from the freighter. Three of them are afoot. I consider the chances of apprehension good. Yours truly, J. H. HAMIL, Com'd'g.

In a letter to the manufacturers Mr. D. W. Morris, druggist, Emporia, Kansas, says: "In sending you the enclosed order for one gross of Chamberlain's Cough Remedy, allow me to say that without any exception, it is the best selling goods in the market. I have sold a great amount of it during the past year to citizens of this place and have the first complaint to hear. It is the best article to use for croup I have ever sold, being pleasant to take, which is an important item when children have to take medicine." For sale by H. C. Hitchcock.

HE FOOLS' TELL.

People who are Easily Deceived. He has Caught Eight so far.

A city druggist stated that he had had eight calls for Joy's Vegetable Sarsaparilla, and had sold his own every time. It did not occur to him that it might be a serious matter to give him the old time mercury and potash preparation to people who do not need syphilis treatment. It is safe to say that not one person in ten has a syphilis trouble. Hence what do they want with such dangerous minerals as mercury and potash? What mischievous of our people are troubled with indigestion, dyspepsia, sick headaches, constipation and face eruptions, all of which are the legitimate results of improper liver and kidney action, or impaired digestive organs. These disorders do not call for syphilis treatment, but for mild vegetable liver, stomach and bowel alteratives. We are surprised that intelligent people should be persuaded into taking a mercury and potash preparation. When you ask for Joy's Vegetable Sarsaparilla, see that you get it.
